215 Whitsett Road
Nashville, TN 37210**

**EPA Identification Number: TND 98 147 4125
Permit Number: TNHW-114
Class 1 Modification Number: 4 (A-854)**

Because you have requested to be kept informed of such matters, Safety-Kleen Systems, Inc. (SK) is providing the required notice for a Class I modification to its existing Hazardous Waste Management Part B Permit (TNHW-114).

Under TDEC regulations, a hazardous waste management facility must provide a copy of its contingency plan and subsequent revisions to the appropriate agencies/organizations. Enclosed is a revised Emergency Coordinator list to replace the one located in Appendix 6-1 of the Part B Permit's Contingency Plan (Attachment 6) for the SK-Nashville site.

The revisions to the Emergency Coordinator list do not alter permit conditions or reduce the capacity of the SK facility to protect human health or the environment. The Division of Solid Waste Management has reviewed and approved these changes as a Class I Permit modification.

Thank you for your interest in our facility.

Sincerely,

Ed Krise
